## Description

Luxurious, spacious cruiser built by CNB/Construction Navale Bordeaux in France. Modern, elegant design by Philippe Briand with wide stern, chines, two rudder blades and vertical bow. The deck saloon ends behind the mast and the foredeck is completely flush. This gives the CNB 76 her sleek profile and elegant appearance. With a large, longitudinal tender garage, the fantastic, bright decksaloon, a clever four-cabin layout with owner's cabin forward and the spacious asymmetrical cockpit the CNB 76 was the first model of the yard to enter the segment of serial production super yachts. Very clever arrangement of the galley and crew area in the stern with direct cockpit-access, which leaves the owner and his guests completely undisturbed and detached from the functional areas on board. This CNB 76 is a virtually new, well-equipped owner's yacht delivered in October 2017. A special feature is the black painted, hydraulic furling mast with carbon fiber Park Avenue-boom by HALL-Spars.

"Mauka Ambiance" interior in tinted oak with bleached oak floorboards (interior design by Jean-Marc Piaton) and optional crew cabin in the forepeak. Extensive specification incl. hydraulic headsail furling systems, electric winches, diesel generator 17,5 KW, air conditioning, watermaker 280 l/h, extensive sail wardrobe incl. gennaker A2 and Code-3, retractable bow and stern thrusters, etc.
