Description

RHEA 850 Timonier: The Four Wheel Drive of the seas. A seaworthy, powerful, safe workboat that you can rely on in all conditions. Nevertheless the RHEA 850 offers ample living space and comfort for weekend trips. "Pêche Promenade" is what this versatile concept is called in France. The sharp stem, deep keel and wide waterline in the aft section give the RHEA 850 superior, stable handling in rough conditions, and the wide running decks, free cockpit and high coaming with all-round railing allow safe movement on deck. At the same time, the RHEA 850 Timonier doesn't only look tough, but also has a classic appearance: The positive sheer line, the traditional lobster stern and the angular wheelhouse give her a characteristic, trawler-like look. Well-maintained and fully equipped owner's vessel built in 2006. Blue hull, teak deck and swim platform in stainless steel and teak. Diesel heating, teak deck, cockpit cover and engine heating were retrofitted in 2014 and 2015. Powerful twin engines 2 x YANMAR 220 hp with shaft drive. The propellers and rudder blades of the RHEA 850 are well protected by two massive keels in front of the drives and steel grounding protections.
