Description

A fast cruiser/racer based on the ORC-formula and a reliable and seaworthy vessel. A yacht in a size that is easy to handle by a small crew and yet a spacious, luxurious blue-water cruiser for long distance sailing. An elegant crack in contemporary Italian design and a gem of traditional boatbuilder's craftsmanship. Like all Solaris sailing yachts, the Solaris 42 is an extremely rigid unit. The 40 mm composite main bulkhead, a solid structure of individual beams and stringers vacuum laminated to the hull, and composite chainplates are just some of the technical features that make the Solaris 42 a stiff, monolithic construction. Efficient appendixes, a powerful rig and a modern, almost wedge-shaped hull with slim forward section and wide stern with chines provide performance and fun on the water. This Solaris 42 is a young, first-hand owner's yacht maintained by a professional staff. Owner's version with two cabins, large cockpitlocker and heads compartment with separate shower. Complete comfort equipment including diesel generator, air conditioning, watermaker, inverter and washing machine. Teak deck everywhere, electric winches, bow thruster, complete BROOKS [&] GATEHOUSE navigation etc.
