## Description

The new flagship Hanse 630e paved the way into the 60 foot class for the German yard HanseYachts AG in the mid-2000s. As a design and technology carrier for the entire model range, the Hanse 630e set standards. State-of-the-art hull design by judel/vrolijk & co. a wonderfully clean and uncluttered deck with a huge cockpit and a sleek, elegant coachhouse make the yacht an eye-catcher and give her the flair of a maxi yacht. The solid construction of hull and deck in epoxy, efficient appendices and an extremely powerful sail plan provide performance and fun on the water.

Thanks to the self-tacking jib, ergonomic deck layout and the control of all sheets and halyards on winches directly in front of the helm stations, the Hanse 630e can easily and safely be handled by a small crew. Below decks, a luxurious, bright and modern loft-style interior provides ample comfort and living space. This Hanse 630e is a fully equipped yacht offered by her second owner. The carbon fiber rig by NORDIC-Mast and an extensive, high-quality sail wardrobe emphasize the sporty character of the yacht. Easy handling thanks to electric winches, electric genoa furler, engine upgrade to YANMAR 160 hp and a retractable bowthrustrer. All comfort equipment is on board: Diesel generator, hydraulic gangway, air conditioning, watermaker etc. Interior in American Cherry, owner's cabin with side bed and saloon layout with additional multipurpose utility room aft to port. Numerous updates and upgrades since 2019, ...
