Description

The Hanse 291 marks the beginning of growth for the new Hanse Yard from Greifswald. Founder Michael Schmidt bought the forms of the famous Aphrodite 291 (designed by Carl Beyer) from Sweden. The price/value ratio was impressive when the yacht was first shown at the Hanseboot 1993. The 291 has a sporty sailing performance while remaining safe and seaworthy for cruising with the family, thanks to her sleek scandinavig lines. This example of the 291 was constantly updated in terms of interior and deck gear. The keel hull superstructure was refreshed in 2017, the underwater surface was fully rebuilt with epoxy primer, new anti-skid deck in 2020. With her beautiful Mahagoni interior, the yacht is still timeless.
