Description

Elegant one-off designed by Georg Nissen, conceived as a fast performance-cruiser and built in 1991 at the Olsen Yachts Aps shipyard in Stubbekøbing/Denmark, which is renowned for individual quality yachts. The GRP/sandwich construction with solid laminate in high stress areas, composite frames and laminated bulkheads as well as a GRP strongback makes for a relatively light but very stiff and stable structure. The lead bulb keel, bolted underneath with a wide flange, ensures high stability and particularly good upwind performance, while the underwater hull with falt aft section makes for downwind fun. The bright, functional interior testifies to the shipyard's great woodworking craftsmanship. For an 11 m yacht, the boat offers an unusually large amount of storage space in lockers, drawers, shelves and compartments. Miss-X was sailed exclusively by the owner with family and friends in the Baltic Sea. In addition to cruising, she successfully participated in regattas until the year 2012. The yacht's initial winter storage was the shipyard in Denmark, since 2005 she spends winters at the yacht center in Kappeln in a heated indoor storage hangar. The owner had an extensive refit carried out in Kappeln between 2012 and 2019 for a grand total of over EUR 250,000.00. Among other upgrades, the yacht received new teak decks, the bottom was trated with epoxy and coppercoat, the hull and coachhouse were painted by Wrede and a carbon fiber rig was fitted. In addition, the entire floor ...
