Key Facts

- Excellent performance under sail.
- Beautiful lines and low coachhouse profile.
- Rudder blade and swim platform in carbon fiber.
- Carbon fiber rig by HALL-Spars.
- Condition practically as new.
- Finished in brushed oak.

Description

Solaris 44 - the perfect balance. A balanced yacht that can be sailed with two fingers on the wheel. High-tech in development and production goes hand in hand with traditional craftsmanship in boatbuilding. Modern Italian design combined with classic lines. The performance of a fast, powerful IRC-cruiser/racer with the comfort of a luxurious cruising yacht. Elegant style and efficient functionality. The solid, stiff construction with a total weight of only 9.8 tons. All these seemingly incompatible opposites characterize the Solaris 44 by Cantiere Se.Ri.Gi./Solaris Yachts. This Solaris 44 emphasizes the sporty character of the IRC-influenced performance-cruiser: Carbon fiber rig by HALL spars, extended carbon fiber rudder blade and rudder shaft, carbon-fiber swim platform and HARKEN racing deck gear. This yacht can be sailed fast and easy by a small crew. The hull number #024 was delivered in spring of 2016 and for personal reasons she has had very little use. A good alternative to a new boat. In addition to the sporty accessories, she comes with an extensive list of comfort equipment: Retractable bow thruster, diesel heating, electric toilets, second refrigerator etc. are on board. 3 cabin layout with forward owner's cabin and interior in brushed oak.

Rigging/Sails

- Keel stepped, 9/10 fractional, white painted carbon fiber mast by HALL-Spars
- Two sets of aftswept spreaders
- Standing rigging in rod-rig
- white painted carbon fiber boom by HALL-Spars
